DPO Group Shopify Setup

STEP
5

We can now deactivate the old API gateway. Navigate to **Settings** -> **Payments** -> **DPO Payment** and click **Manage**.

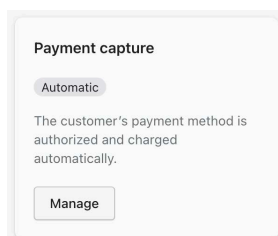

STEP
6

Now click on the **Deactivate DPO Payment** button and confirm by clicking the second **Deactivate DPO Payment** button in the pop-up.

STEP
7

To set your Shopify orders to be marked as paid once an order has been paid, Navigate to **Settings** -> **Payments** -> **Payment capture** and click the **Manage** button.

STEP
8

Select **Automatically capture payment for orders** and click the **Save** button.

Activate the test payment provider, or set your payment provider to test mode. Learn more

Payment capture method

Choose between [automatic and manual capture](#) .

Automatically capture payment for orders.
The customer's payment method is authorized and charged automatically.

Manually capture payment for orders.
The customer's payment method is authorized at the time of their order. You'll need to manually capture payment within the authorization period.

DPO GROUP WILL NOW BE AVAILABLE AS A
PAYMENT METHOD ON THE CHECKOUT PAGE.
